## AGNES SCOTT COLLEGE

### History and Purpose

AGNES SCOTT is a privately controlled college of liberal arts for women offering courses leading to the Bachelor of Arts degree. The College is located on a seventy-five acre campus at Decatur, Georgia, in the metropolitan Atlanta area. It has a faculty of eighty-five men and women and a student body of seven hundred and fifty. Permanent assets amount to more than \$20,000,000, of which \$11,900,000 is in endowment.

The College was founded in 1889 as Decatur Female Seminary, offering work of grammar school level. In 1890 it was renamed Agnes Scott Institute in honor of the mother of the founder, Colonel George W. Scott, and within ten years was accredited as a secondary school. In 1906, the Institute was chartered as Agnes Scott College, and Agnes Scott Academy (discontinued in 1913) was organized to offer preparatory work. The first degrees of the College were conferred in June of 1906.

The three presidents of the College have been Frank Henry Gaines (1889-1923); James Ross McCain (1923-1951); and Wallace McPherson Alston (1951- ).

Agnes Scott was founded by Presbyterians and has always maintained a close relationship to that church. It is not controlled or supported by the church, however, and special care is taken not to interfere in any way with the religious views or church preferences of students.

A commitment to the liberal arts program, insistence upon quality in education, and emphasis on the development of Christian character are foundation principles of the College. Strengthening these purposes are small classes, close faculty-student relationships, continuity of leadership, and a varied program of student activities. On completion of the Bachelor of Arts degree, students interested in careers enter immediately—or after further study—a variety of fields which include teaching, religious education, business, medicine, research, government, and social service. More than twenty per cent of each class take advanced work on the graduate or professional level.

## Educational Recognition

In 1907 Agnes Scott was admitted to membership in the Southern Association of Colleges and Schools and in 1926 it was granted a charter by the United Chapters of Phi Beta Kappa. It was a charter member of the American Association of University Women and of the Southern University Conference.

## University Center

Membership in the University Center, a group of institutions of higher learning in the Atlanta area, provides social and educational resources beyond the limits of the college campus. In the group are Emory University, Georgia Institute of Technology, Georgia State College, the University of Georgia at Athens, Columbia Theological Seminary, Atlanta School of Art, Oglethorpe College, the Atlanta University Center, and Agnes Scott College. Chief areas of cooperation are in library services, departmental conferences, visiting scholars, and faculty research. Agnes Scott and Emory University have a joint teacher education program, with a single director and broad cooperation in faculty and course offerings.

## ADMISSION of STUDENTS

AGNES SCOTT has a resident student capacity of six hundred and eighty-five. Total enrollment, including resident and non-resident students, is seven hundred and fifty. Applicants whose homes are not in the local community must apply for admission as resident (boarding) students. Exception may be made if they live with close relatives.

Correspondence regarding admission should be addressed to the Director of Admissions.

### Admission to the Freshman Class

There are two plans of admission: (1) the Regular Plan and (2) the Early Decision Plan, open to applicants who certify that Agnes Scott is their single choice of college and who have followed instructions outlined in Item 4 of this section. Regular Plan applicants are notified of the action of the admissions committee in mid-April; Early Decision applicants are notified by December 1. Acceptance of an application assumes the satisfactory completion of courses and a satisfactory medical report.

In determining admission, the Committee on Admissions considers evidence of the candidate's academic preparation, general ability and achievement, interests, character, maturity, personality, and health. Criteria for judging admission qualifications include the high school record, rank in class, College Entrance Examination Board test scores, principal's recommendation, health report, and additional personal data which the College obtains.

1. *High School Preparation.* Courses taken in high school should be relevant to courses offered in college in order to provide continuity in the total program of study. Skill in English composition, ability to read with comprehension, some competence in at least one foreign language, and some understanding of scientific principles and methods are important in preparation for the program here; preference is given to applicants who present evidence of this preparation.

Candidates for admission are expected to complete a four-year high school program and to take a minimum of four academic subjects during each of the four years. The following subjects are strongly recommended or required:

English composition, grammar, and literature. Four years required.

College preparatory mathematics, including plane geometry. A minimum of three years recommended.

Foreign language: three or four years in one language (preferably Latin), or two years in each of two languages recommended. A minimum of two years in one language required. No entrance credit given for one year in a language.

Science: one or more laboratory sciences recommended.

History: a minimum of two years recommended.

Elective credits may be chosen from the foregoing subjects. Credits may also be presented in art history and appreciation; Bible; and music theory, history, and appreciation. No entrance credit is given for vocational subjects.

Prospective applicants are advised to send during the junior year, or earlier, an informal statement of courses taken and grades made. A form for the purpose may be obtained from the admissions office.

2. *Entrance Examinations.* The College Entrance Examination Board Scholastic Aptitude Test and a total of at least three Achievement Tests are required. The Achievement Tests must be in English and in two other current subjects chosen from two different fields. All applicants (except those admitted on the Early Decision Plan) must take the Aptitude Test and three Achievement Tests in December and/or January of the senior year. (The November date for the SAT is acceptable for students living in states where a November test administration is offered.) In unusual circumstances, the March series in the senior year will be accepted. Because some senior year programs do not include three subjects suitable for testing, it may be necessary for the candidate to offer a junior year Achievement Test in a terminal or one-year subject. The Writing Sample cannot be substituted for one of the Achievement Tests.

High school juniors are advised to take the College Board Scholastic Aptitude Test in March or May and three Achievement Tests in May or in July following the junior year. This testing in the eleventh grade is advised for guidance and practice purposes, and in order to provide Achievement Test scores in a variety of fields. Juniors interested in Early Decision should read instructions in Item 4 of this section.

The candidate should write to the College Entrance Examination Board for a Bulletin of Information, which contains an application form and information about tests. The address of the Board is Box 592, Princeton, New Jersey 08540, or (for candidates who live in

western states) Box 1025, Berkeley, California 94701. The application and fee should be mailed to the Board six or seven weeks in advance of the testing date.

The Board has set the following examination dates for the remainder of the academic year 1966-1967: May 6 and July 8. Dates for the 1967-1968 series are November 4 (in several states, including Georgia), December 2, January 13, March 2, May 4, and July 13.

*3. Filing of Application (Regular Plan).* The application for admission may be obtained on or after September 1 of the candidate's senior year in high school and may be filed on or after October 15. It should be filed before February 1. A statement regarding admission and scholarship procedure is mailed with each application.

*4. Filing of Application (Early Decision Plan).* Candidates who have decided that Agnes Scott is their single choice of college and who will certify that they are not applying to any other college until informed of the action of the Agnes Scott Admissions Committee may apply for admission on the Early Decision Plan. They must have taken the Scholastic Aptitude and three Achievement Tests of the College Entrance Examination Board in March, May, or July. Achievement Tests are to be taken in English and in two other subjects (see Item 2).

The special instructions and application for Early Decision are to be obtained from the admissions office on or after September 1 of the senior year; application is to be filed by October 15 (or October 1, if scholarship assistance is requested). Candidates will be notified by early December of the action of the Committee. Those admitted on the Early Decision Plan are not required to take additional examinations; those whose applications are deferred to the Regular Plan will be required to take senior year College Board tests.

Candidates accepted on the Early Decision Plan agree, if they wish a place held in the freshman class, to make a nonrefundable payment; this payment represents a portion of the expenses for the freshman year.

The Early Decision Plan is designed to assure unusually well-qualified applicants of admission to their first-choice college. Only those with excellent school records and good junior year College Board scores should apply; they should first secure advice from their school principal or counselor.

5. *Interviews.* Interviews are recommended, but not required. The admissions office is open for appointments (except during holiday periods) on Monday through Friday from nine to twelve and two to four and on Saturdays until noon. An appointment should be made in advance in order that the student may confer with a member of the admissions staff and see the campus with a guide.

6. *Medical Report.* Each student is required to submit a certificate of examination by her family physician; a certificate of successful vaccination against smallpox within six years; certificates of immunization against typhoid, polio, and tetanus; a report on a recent chest X-ray; and a complete medical history report. Forms for this report are mailed in May; the report must be completed by August 1.

7. *Advanced Placement and Credit.* Students may, with the approval of the departments concerned, be placed in advanced sections of freshman courses, or in courses above the freshman level, on the basis of College Entrance Examination Board Advanced Placement Examinations, Scholastic Aptitude and Achievement Test scores, or placement tests administered at the college.

Students who wish to receive college credit for advanced work done in high school must take the College Board Advanced Placement Examinations in May. Students who receive grades of 4 or 5 on these examinations may, with the recommendation of their school and the approval of the department concerned, be given college credit and advanced placement. Students receiving a grade of 3 may, with the approval of the department, be given advanced placement, but not credit.

Nine hours credit may be given for one course without further requirements in that field. Credit for an additional course or courses in other fields may be given only after the student has completed, with a grade of C or better, another course of appropriate level in the department or departments concerned.

8. *Assignment of Rooms and Roommates.* Rooms and roommates are assigned by the Dean of Students and her staff. Information about assignments is not available in advance of arrival. Special requests may be filed with the admissions office for referral to the Dean of Students; such requests will be honored if possible. Date of application is one of the considerations in assigning rooms.

## Admission of Transfer Students

A limited number of transfer students are admitted to the sophomore and junior classes. Each applicant must fulfill the requirements for admission to the freshman class, using transferred credits if necessary. She must present transcripts of her high school and college records, a copy of the college catalogue with the courses taken indicated, a statement of honorable dismissal, and the results of the Scholastic Aptitude Test of the College Entrance Examination Board. The College advises only those students to apply who have made good records and who have followed a course of study corresponding to the Agnes Scott program. All credits are tentative and dependent upon satisfactory work at Agnes Scott.

Transfer students must complete the work of the junior and senior years in this college.

## Readmission of Students

A student who has withdrawn from college is not automatically readmitted. She should communicate with the Director of Admissions prior to March 1 in order to obtain instructions for reapplication.

A student who is readmitted is subject to fees in effect for new students.

## THE CURRICULUM

AGNES SCOTT COLLEGE confers the degree of Bachelor of Arts. The curriculum is designed to provide a sound and broad liberal education, requiring of all students a program of distribution of studies during the first two years and of concentration in a major field during the last two years.

Three quarters make up the college year. Credit for courses taken is given in terms of quarter hours. A course scheduled for three hours a week for one quarter will give a credit of three quarter hours; a course scheduled for three hours a week for the entire college year will give a credit of nine quarter hours.

Candidates for the degree must present one hundred eighty quarter hours of academic credit. They must earn at Agnes Scott a number of quality points equal to the number of credit hours taken in residence and presented for the degree. A grade of C or above must be made in not less than forty-eight quarter hours in the junior and senior years, and in not less than twenty-one hours in the senior year. The work of the junior and senior years, or the work of three of the four years, including the senior year, must be completed in this college. No credit is given for D work earned in another college.

### Distribution of Studies

Certain courses are required, as listed below, and others are elective. The program of work for each student is approved by the appropriate Committee on Courses and may not be changed without the permission of the Committee.

#### A. Specific requirements:

English 101 or 102	9 quarter hours
Bible 101 or 201	9 quarter hours
Physical Education, 3 periods a week during the first 6 quarters of residence	

#### B. Group requirements, with options:

##### *Group 1.*

a. Foreign Language	9 or 18 quarter hours
Latin, Greek, French, German, Spanish. A language based on two or more high school credits may be continued for a minimum of one year (9 hours), or a new language may be taken for a minimum of two years (18 hours). Students admitted with only two credits in one foreign language are required to take a minimum of two years (18 hours) in one language in college.	

**b. Literature**

9 quarter hours

Choice of a literature course in English (English 211 unless exempted) or a literature course in a foreign language. If a literature course in foreign language is used to satisfy this requirement, it must be a course beyond the intermediate level and it cannot be in the language used to satisfy requirement *a* in this group.

***Group 2.***

Science and Mathematics	21 quarter hours
-------------------------	------------------

Biology, Chemistry, Physics, Astronomy, Mathematics. The equivalent of a year course must be completed in each of two departments. One course (12 hours) must be in a laboratory science.	21 quarter hours
---	------------------

***Group 3.***

a. Choice of History 101 or 215, Classics 150, Philosophy 201	9 quarter hours
---	-----------------

b. Choice of Economics 201 or 301-302, Political Science 201-202 (unless History is offered under <i>a</i> ), Psychology 101 or 201, Sociology 203-205	9 quarter hours
--	-----------------

The freshman program of study is approved by the Committee on Courses for Freshmen and usually includes five academic subjects and physical education. The following courses must be elected, with the options indicated above: English 101 or 102; a foreign language (continuation and/or a new language); a science and/or mathematics. Since two courses in Group 3 are required for the degree, it is usually advisable to take one in the freshman year; in this field, History 101, Classics 150, and Psychology 101 are open to first-year students. Courses in art, Bible, music, and speech and drama are also available.

The specific and group requirements for the degree must be completed by the end of the sophomore year with such exceptions as the Committee on Courses for Upperclassmen permits.

## **Major and Related Hours**

In the spring quarter of the sophomore year each student elects a major and related hours. The major consists of an approved program of courses taken in one subject. Related hours are courses taken outside the major subject which are accepted by the department towards the enrichment and completion of the major program.

The major department shall control a minimum of fifty-one quarter hours and a maximum of sixty. The hours shall be distributed as follows: thirty-six to fifty-one quarter hours in one subject, including the basic course, and nine to twenty-four quarter hours in related

fields, with a minimum of nine in one department. The following exceptions may be made: (1) in the departments of Art and Music, where the major may consist of fifty-one to sixty hours without related work in another department; (2) in the departments of Classics, Economics and Sociology, and History and Political Science, where the major may consist of thirty-six to fifty-one hours in one division of the department and where related hours or hours taken from the other division may total nine to twenty-four; and (3) in the department of Chemistry for students who wish to meet the requirements of the American Chemical Society.

The limitation upon the number of hours in the major subject does not apply in the case of courses which may not be counted in the major (elementary modern foreign language, for example). However, no more than sixty-three hours may be taken in the major department unless the excess hours represent work beyond the one hundred eighty hours required for the degree, or unless the major is in a multi-subject department (Classics, Economics and Sociology, History and Political Science).

The independent study program is not included in any of the above limitations.

Unless specifically excused by the major department and the Committee on Courses for Upperclassmen, the student must continue her major subject throughout the junior and senior years and must take at least twenty-seven hours in the major subject during these years, with a minimum of eighteen hours in 300 and 400 level courses. A minimum of eighteen of the twenty-seven hours must be completed with a grade of C or above.

Major work is offered in the following subjects: Art, Bible, Biology, Chemistry, Classics, Dramatic Art, Economics, English, French, German, Greek, History, Latin, Mathematics, Music, Philosophy, Physics, Political Science and History, Psychology, Sociology, and Spanish.

An interdepartmental major is offered in Science. This major is primarily for premedical students and for students planning to teach science in secondary school. The major for students interested in medicine or medical technology should consist of: Biology 101, 304, 208 or 310, 306; Chemistry 102 or 103, 250, 322 or 323, 353; Physics 101 or 210. Students planning to teach science should consult the chairman of the department of education for specific requirements.

## The Junior Year Abroad

A limited number of qualified students may substitute for the work of the junior year at Agnes Scott a year of study abroad under the direction of a group approved by the College. To be eligible for the junior year abroad, a student must have high standing in the work of the first two years at Agnes Scott and must be recommended by her major department and by the language department involved. Any student who may wish to apply for the year abroad should file written request in the office of the Dean of the Faculty before February 1 of her sophomore year.

## Program of Independent Study

Through a program of independent study, superior students are given the opportunity in the senior year to explore for themselves some field of intellectual or artistic interest in the major and to produce independently some piece of work connected with it. The program is open to all seniors who qualify on the basis of a B average by the end of the winter or spring quarter of the junior year. In exceptional cases, upon the recommendation of the department and with the approval of the independent study committee, seniors who have not achieved a B average may be invited to participate in the program and students who have a 2.60 average may be invited to begin during the spring quarter of the junior year.

Students who are eligible for the independent study program are so notified by the Dean of the Faculty.

## Summer Courses

Students may attend accredited senior college summer schools. Courses and credits must be approved by the Dean of the Faculty before the close of the regular college session. A student who attends summer sessions in order to accelerate her academic program must have her entire plan of acceleration approved by the Dean of the Faculty.

The number of hours a student may take in one summer session will depend upon the quality of her work at Agnes Scott, upon the nature of the courses chosen, and upon the length of the summer session. Under no circumstances will more than fifteen quarter hours

be approved for a single summer session. Total summer session credits counted toward the degree may not exceed thirty quarter hours. In order to receive credit, the student must make a grade higher than the passing grade (for example, C when the passing grade is D).

Summer session work may not be used to fulfill quality point requirements for classification or for the degree.

### **Graduate and Professional Study**

A student planning to attend graduate or professional school should confer with her faculty adviser and the Dean of the Faculty as early as possible in order to be aware of any specific course and language requirements for advanced degrees. Information regarding graduate and professional schools, fellowships, and standard examinations may be secured in the office of the Dean of the Faculty. A student interested in the Master of Arts in Teaching (MAT) program should consult the chairman of the education department and the Dean of the Faculty.

## ADMINISTRATION of the CURRICULUM

STUDENTS are expected to make themselves familiar with the plan of the curriculum and to arrange their courses to conform with its requirements. During the spring quarter, all students in residence file with the Registrar cards indicating course selection for the next session. These course cards are approved or revised by the Committee on Courses for Upperclassmen. Entering students make a preliminary selection of courses during the summer preceding enrollment.

### Limitation of Hours and Courses

The maximum number of credit hours a week for freshmen is sixteen and the minimum fourteen.

The maximum number of credit hours a week for sophomores, juniors, and seniors is eighteen and the minimum fourteen. Permission to carry eighteen hours is restricted to students who have made a B average for the preceding quarter; such permission is granted by the Committee on Courses for Upperclassmen. Students admitted to the teacher education program may carry eighteen hours during the professional quarter of student teaching.

Not more than two courses may be taken under any one instructor in any given quarter.

Not more than twenty-five hours (excluding independent study) may be taken in one subject in any one session unless hours in excess of twenty-five are matched by hours in excess of forty-five for the session.

Not more than sixty-three hours in one department (excluding independent study) may be presented for the degree unless (1) the excess hours are in addition to the one hundred eighty required for the degree, or (2) the excess hours are earned in a multi-subject department (Classics, Economics and Sociology, History and Political Science), in which case a maximum of sixty-three hours may be permitted in one division of the department and a total of seventy-five in the two divisions. (See also statement under Major and Related Hours.)

Not more than thirty-six hours in the junior and senior years may be in courses below the 300 level; hours in excess of thirty-six in 100

and 200 level courses must be in excess of ninety total hours earned in the junior and senior years.

Not more than nine hours in the senior year may be in 100 level courses except by permission of the major professor, the Dean of the Faculty, and the Committee on Courses.

Students may audit courses only with written permission from the Dean of the Faculty. The student's previous academic record and the number of credit hours being carried are factors considered.

## Course Changes

A course of study which has been approved cannot be changed without the permission of the appropriate course committee. No new course may be elected after the first ten days of a quarter. No course may be dropped after the first Tuesday in November for the fall quarter, the first Tuesday in February for the winter quarter, or the first Tuesday in May for the spring quarter; exception may be made only with the permission of the course committee and the Dean of the Faculty.

## Class Attendance

Attendance at all academic appointments is required of students on academic probation and of students who have because of unsatisfactory grades been placed on the ineligible list.

Freshmen are permitted one cut in each class during the fall quarter. In the winter and spring quarters, freshmen who have maintained in the academic work of the preceding quarter a C (1.00) average, with no grade below D, have the privilege of voluntary class attendance. Attendance at all academic appointments is required of freshmen who do not meet these standards.

Students who have the privilege of voluntary class attendance are expected to keep academic appointments and to be absent only with just cause. The responsibility for any work missed because of absence rests entirely upon the student.

Attendance at tests announced a week in advance is mandatory.

Attendance at classes is required the day before and the day after a holiday.

Each student is required to register before attending her first class in the winter quarter. A student who returns from Christmas vacation

in time to attend her first class, but who fails to register before doing so, is subject to an automatic penalty of a \$5.00 late registration fee. A student returning late from Christmas vacation is subject to the penalty of a \$5.00 late registration fee unless her absence is excused.

## Examinations

General examinations are held at the end of each quarter. Attendance is required. A student absent from examination because of illness may take the examination in question at the regular time scheduled for re-examinations (see below). A student absent without excuse from the Dean of Students or the physician is automatically excluded from college.

Re-examinations are permitted in the case of conditional failure. These examinations are given in the first week of the quarter following failure. Those failing in a re-examination are required to repeat the course or forfeit the credit.

A "special" examination is given only with the permission of the Dean of Students in response to a written request from the student. If permission is granted, the student must present the Dean of Students' receipt for \$5.00 before the instructor is authorized to give the examination.

## Grading System

Grades indicating the student's standing in any course are officially recorded as follows: A, excellent attainment; B, good attainment; C, average attainment; D, passable attainment; E, failure with privilege of re-examination; F, failure without privilege of re-examination.

Grades are evaluated by a quality point system: A = 3 quality points per quarter hour, B = 2, C = 1, D = 0. For a statement of the grade and quality point requirements for class standing and for graduation, see sections on Classification of Students and Requirements for the Degree.

## Discipline and Exclusion

The work of each student is reviewed at the end of every quarter. Those students whose work is not satisfactory are placed on an ineligible list. They lose the privilege of voluntary class attendance,

and their activities and social engagements are subject to review by the Office of the Dean of Students.

A student whose work is very unsatisfactory at the end of any quarter may be asked to withdraw from college or may be placed on academic probation for the remainder of the year. If by the end of the session a student has failed to earn at least thirty quarter hours of degree credit in academic work she is automatically excluded.

A student who fails for two successive years to meet the requirements for advancement to the next higher class is automatically excluded.

A student whose continuance in college may involve danger to her own health or to that of others may be asked to withdraw.

Each student upon entrance formally adopts the Honor System by signing a pledge to uphold the standards and regulations of the College. These standards and regulations are printed in *The Student Handbook*. A student whose conduct indicates that she is not in sympathy with the ideals and standards of the College or who is not mature enough for its program may be asked to withdraw. In such cases the judgment of the administrative officers is sufficient, and it is not necessary that specific reasons be given.

### Withdrawal

A student who withdraws from college for reasons other than suspension or exclusion must obtain a withdrawal card from the Dean of Students or the Registrar. This card must be signed by her parents or guardian and returned to the Registrar.

## COURSES of INSTRUCTION

1967-1968

COURSES numbered 101 to 199 are open primarily to freshmen and sophomores; Courses 201 to 299 to sophomores and juniors; Courses 301 to 399 to juniors and seniors; and Courses 401 to 499 to seniors only. Courses open to lower classes are also open to upper classes unless stated to the contrary.

Fall quarter courses are designated by *f*, winter quarter courses by *w*, spring quarter courses by *s*. Numbers with hyphenated letters indicate courses extending through two quarters. Numbers without letters indicate courses extending throughout the year. No credit is given for a course until the entire course is completed.

### Program of Independent Study

The course number 490 is used in each department for the program of independent study. The program may be undertaken for three, four, or five hours per quarter, with a maximum total credit of ten quarter hours, and must be continued for more than one quarter except in unusual cases and with the permission of the Dean of the Faculty. Students who are eligible for the program are so notified by the Dean of the Faculty.

### Emory University Courses

Under a cooperative agreement, juniors and seniors may take courses at Emory University. Permission for such courses must be secured from the Course Committee and is usually limited to courses not offered at Agnes Scott. Students interested in the preprofessional courses in Librarianship should consult the Dean of the Faculty.

The Department of Education does not offer a major. Teacher education at Agnes Scott is a college-wide enterprise, and the Department of Education exists as one of many departments that contribute to the future teacher's curriculum. In order to provide the strongest faculty possible and to enrich course offerings, Agnes Scott College and Emory University cooperate in sponsoring the Agnes Scott-Emory Teacher Education Program. Programs in the various teaching fields have been planned by a Committee on Teacher Education representing both institutions.

Students who intend to teach should begin to plan programs early—in no case later than the end of the sophomore year. It is recommended that they take General Psychology prior to the junior year. Students will be advised in regard to requirements and assisted in planning for necessary courses.

In some cases students preparing to teach at the elementary school level may have to plan additional course work in summer school.

Students planning to teach at the secondary level may be certified in one of the following five fields: English, foreign language, mathematics, science, social studies. Their course of study will include an approved major program in an appropriate subject field and the following courses in Education: 302, 303, 401S, 402, and 404. (Education 301 may be substituted for Education 302 with permission of the department.)

Students planning to teach at the elementary-school level must meet the following requirements: (1) Completion of any major offered by the College; (2) Completion of Education 301, 303, 304, 305, 401E, 402, and 404; (3) Completion of courses designated as special fields for the elementary teacher. The following requirements may be fulfilled as part of the specific or group requirements for the degree or as a part of the major. Otherwise, they must be fulfilled by additional work. The special fields for the elementary teacher include (1) a minimum of three courses in the arts: Art 191, Music 340, Recreation Leadership; (2) a minimum of two courses in science and mathematics: one course in a laboratory science (Biology 101 is recommended) and one course in mathematics (Mathematics 101, 110, or 102); (3) a minimum of two courses in the social sciences: one course in history (History 215 is recommended) and an additional course in political science, economics, or sociology; (4) Librarianship 315, Books and Related Materials for Children (at Emory), or a program of directed reading (with subsequent evaluation) approved by the Department of Education for the summer before the senior year.

Upon successful completion of a planned program at graduation, students fill out an application form and are approved automatically for certification to teach in Georgia. Out-of-state students should present certification requirements for their respective states at the time of projecting programs in order that proper guidance may be given.

## BUILDINGS, GROUNDS, and EQUIPMENT

THE COLLEGE has a campus of seventy-five acres. The main buildings are brick and stone and those of more recent construction are modern Gothic in design.

BUTTRICK HALL, the classroom-administration building, was erected in 1930 and is named in honor of a former president of the General Education Board of New York. It contains offices, classrooms, a language laboratory, day student lounge, and the college post office, bookstore, and bank.

THE MCCAIN LIBRARY, erected in 1936, was named in honor of the late President Emeritus James Ross McCain. The Agnes Scott collection numbers about 100,000 volumes, and 500 periodicals are received currently. The two main reading rooms and carrels seat 325 students. There are six floors of open stacks.

Supplementing the bibliographical resources of the Agnes Scott library are union catalogues at Emory University and the University of Georgia of the holdings of thirty libraries in the Atlanta-Athens area. More than 2,000,000 volumes are represented. Reciprocity in the libraries of this area, particularly between Agnes Scott and Emory, is a feature of the University Center program.

PRESSER HALL, completed in 1940, bears the name of Theodore Presser, Philadelphia music publisher. The building contains Gaines Chapel, Maclean Auditorium, and facilities for the teaching of music, including soundproof studios and practice rooms.

THE JOHN BULOW CAMPBELL SCIENCE HALL, completed in 1951, is named in honor of a former trustee of the College. The building contains laboratories, lecture rooms, a large assembly room, a library, a museum, and departmental offices.

THE CHARLES A. DANA FINE ARTS BUILDING, completed in 1965, houses the departments of art and of speech and drama. An outdoor sculpture court and stage, the Dalton galleries, free-standing balcony studios, and an open-stage theatre are special features of the building.

THE BRADLEY OBSERVATORY, erected in 1949, houses the 30-inch Beck Telescope, a planetarium, lecture room, photographic dark room, laboratory, and optical shop.

BUCHER SCOTT GYMNASIUM-AUDITORIUM is the center of athletic activities. Basketball and badminton courts, an auditorium, swimming pool, and physical education staff offices are located here. Adjacent to the gymnasium are a playing field, five all-weather Laykold tennis courts, and an amphitheatre.

THE FRANCES WINSHIP WALTERS INFIRMARY, completed in 1949 has capacity for thirty patients. The building is named in honor of the donor, an alumna and trustee.

THE LETITIA PATE EVANS DINING HALL, completed in 1950, is named in honor of its principal donor, Mrs. Letitia Pate Evans of Hot Springs, Virginia. The building has a large main hall and three additional dining rooms.

ALL DORMITORIES are located on the campus. Agnes Scott Hall, Rebekah Scott, Inman, Hopkins, Walters, and Winship Hall are the main dormitories. All rooms are at the same rate; and each room is furnished with single beds, mattresses and pillows, dressers, chairs, study table, bookcase, and student lamp. Students supply their own bed linen, blankets, curtains, rugs, and towels.

Other buildings on the campus include the President's Home, the Murphey Candler Student Activities Building, the Rogers Cabin, and the Anna Young Alumnae House.

## THE COLLEGE COMMUNITY

AGNES SCOTT has been a self-governing community since 1906. Student Government Association directs the activities of the campus through a coordinating legislative and consultative body (Representative Council), a Judicial Council responsible for handling infractions of regulations, and House Councils responsible for coordinating life in the dormitories. Functioning closely with Student Government are Athletic Association, Christian Association, and Social Council. These three groups have responsibility for athletic, religious, and social activities on the campus.

There are no sororities. Clubs directed by students or by students and faculty provide opportunity for development of special interests and talents. Membership in most of these is open by try-out. They include language clubs, Pi Alpha Phi debating society, Blackfriars Dramatic club, Dance Group, Dolphin Club, Glee Club, Guild Student Group (chartered by the American Guild of Organists and sponsored by the Atlanta chapter), Music Club, Psychology Club, several political interest groups, and two creative writing clubs. National honor societies include Mortar Board (service and leadership) and Eta Sigma Phi (classics). Student publications are the *Aurora*, a quarterly literary magazine; the *Silhouette*, the student yearbook; and the *Profile*, the campus weekly.

### Cultural Opportunities

The College seeks to encourage the fine arts through a program of instruction in music, art, speech and drama, and the dance, and through contributions to the cultural life of the community. Exhibitions of paintings and other objects of art are held periodically in the college art galleries, and throughout the year programs in music, the dance, and drama are presented. A student Arts Council serves as a coordinating body for stimulating creative expression and participation in the arts on campus.

Through the student-faculty Lecture Committee, the College brings to the campus lecturers and visiting scholars in various fields and distinguished personalities from the performing arts. Atlanta itself offers art exhibitions, concert series, performances by nationally known ballet and theatre groups, and an annual week of Metropolitan Opera.

## Religious Life

Every effort is made to promote the students' religious life. They are asked to select the church they desire to make their church home and are encouraged to attend this church regularly.

Vesper services are conducted by members of the faculty three evenings a week. Chapel programs are held each morning, Tuesday through Friday. The Wednesday chapel is a College Convocation which all members of the college community are expected to attend. Although attendance at vespers and other chapel services is voluntary, students are urged to be present regularly.

Each year a distinguished leader is brought to the campus for Religious Emphasis Week.

## Health Service

The student health service is under the direction of the college physician and her staff.

The students' health needs are met as far as possible by the medical department. The comprehensive fee charged all students includes ordinary infirmary and office treatment for resident students, and emergency treatment for non-resident students. If there is need for such special medication as antibiotics, hypodermic injections, vitamins, prescriptions, X-rays, special diet, etc., the expense is met by the individual. Resident students should consult the college physician before seeking medical or dental care in Atlanta.

The College recommends a twelve-month Student Accident and Sickness Insurance Plan in order to help meet possible medical expenses not provided by the college health service. Information about the plan is sent to parents prior to the opening of each session.

The College reserves the right, if the parents or guardians cannot be reached, to make decisions concerning emergency health problems. The parent is expected to sign the necessary forms to give the College this right.

## Counseling

While each student is encouraged to be increasingly self-reliant in college and community life, the College realizes the value of advisory assistance in developing individual interests and ability. Academic

counseling is done by the Dean of the Faculty, the Assistant Dean of the Faculty, the major professors, and designated members of the faculty.

General counseling of students, particularly in relation to non-academic matters and social and extra-curricular activities, is centered in the office of the Dean of Students.

### Placement Service

The College operates a placement service through the office of the Dean of the Faculty. Confidential reference files are maintained for all graduates and are sent to prospective employers on request. There is no charge for the service.

A vocational information service is directed by an Assistant Dean of Students.

## Payment of Fees

The fee charged all students at time of registration is applied toward the total expenses of those who enroll. Freshman and transfer applicants who withdraw applications before action is taken, or who withdraw after being notified of acceptance, will forfeit \$15.00 of the fee if the withdrawal takes place on or before the Candidates Reply Date in May (or February 1 in the case of Early Decision candidates). None of the fee will be refunded after these dates except to students whom the College finds it impossible to admit. In such cases, the entire fee will be refunded. (Effective for students entering in 1968, a fee of \$15.00 is to accompany each application and will be credited toward the account of students who enroll.)

Returning boarding students will forfeit \$15.00 of the registration fee if they withdraw on or before May 15, and returning day students will forfeit \$15.00 of the fee if they withdraw on or before June 15. After these dates, none of the fee will be refunded except in the case of students not permitted to return; in such cases, all of the fee will be refunded.

All boarding students (with the exception of those admitted on the Early Decision plan) must make a nonrefundable room-retaining payment of \$200.00 on or before June 15. (Effective for students entering in 1968, a nonrefundable payment of \$235.00 will be due from boarding students and \$60.00 from day students by the Candidates Reply Date in May, or earlier in the case of students admitted on the Early Decision Plan.)

A patron who finds it necessary to request special arrangements for the September or January payment is asked to write the treasurer in advance. Deferred payments will not be authorized for the room-retaining fee due June 15.

## Music Fees

Piano, violin, voice tuition (including practice) . . . . .	\$165.00
Organ tuition (including practice) . . . . .	180.00

The above fees cover two thirty-minute lessons weekly for the session. They are payable in full in September, or at the beginning of each quarter. The charge for one thirty-minute lesson weekly is

half of the regular fee. Music fees are due in advance of the first lesson, after course committee approval has been secured.

## Terms

No student will be admitted for less than a full quarter.

No refunds will be made because of the absence, illness, dismissal, or withdrawal of a student. No adjustment in fees will be made when a student changes from boarding to day student status, or when she attends only one or two quarters of the session, unless a written request for such an arrangement is filed with the Registrar by June 15 of the preceding session. These provisions are necessary because the College's financial arrangements for instruction and maintenance must be made well in advance of the beginning of each college year. With a limited student body, the College suffers a financial loss whenever a student withdraws, no matter how valid the reason.

A student may not attend classes or take examinations until accounts have been satisfactorily adjusted with the Treasurer.

All financial obligations to the College must be met before a student can be awarded a diploma, or before a transcript of record can be issued to another institution. There is no charge for the first transcript, but a charge of \$1.00 is made for each additional copy.

The College does not provide room and board for resident students during the Christmas vacation. The dining hall and dormitories are closed at this time.

In cases of prolonged illness or contagious diseases, students must provide a nurse at their expense and must pay for medicines and for consultations.

The College exercises every precaution to protect property of students, but will not be responsible for any losses that may occur.

It is understood that upon the entrance of a student her parent or guardian accepts as final and binding the terms and regulations outlined in the catalogue.

## Personal Accounts

A college bank is operated in the Treasurer's office for the convenience of students.

Books and supplies may be purchased in the bookstore. The College suggests that \$100.00 to \$125.00 be brought for this purpose.

## SCHOLARSHIP, LOAN, and SPECIAL FUNDS

### Scholarship Aid Program

The income from a limited number of endowed funds is available for students who need financial aid in order to attend Agnes Scott. Students do not apply for aid from a specific fund; they file applications in accordance with instructions furnished by the admissions office to entering students, or posted during the session for students already in residence. A scholarship committee determines the amount of each stipend, using the Parents' Confidential Statement of the College Scholarship Service as the basis for determining need. Each award is made for one year, but may be renewed. In 1966, twenty-three per cent of the student body had aid from the College, with stipends ranging from \$100 to full tuition.

A freshman is eligible for two types of scholarship aid: a grant-in-aid requiring no duties, or (if the aid totals \$300 or more) a combination of grant-in-aid and service scholarship. Students already in residence may be awarded a service scholarship or a combination of service scholarship and grant-in-aid, with the grant-in-aid representing the portion of the total award that is in excess of the amount for which the student must work. Service scholarships require from five and one-half hours of work per week for freshmen and sophomores to a maximum of ten hours per week for upperclassmen. Duties are assigned by the Supervisor of Service Scholarships (a member of the Dean of Students' staff) and may involve acting as hostesses, operating the switchboard, or assisting in the library, offices, physical education department, or laboratories.

As a member of the College Scholarship Service (CSS) of the College Entrance Examination Board, Agnes Scott subscribes to the principle that the amount of financial aid granted a student should be based upon financial need, within the limits of available funds. Entering students seeking financial assistance from Agnes Scott must submit a Parents' Confidential Statement (PCS) form to the College Scholarship Service, designating this college to receive a copy of the form. The PCS form may be obtained from the high school or from the College Scholarship Service, Box 176, Princeton, New Jersey 08540 or Box 1025, Berkeley, California 94701 or Box 881, Evanston, Illinois 60201. Early Decision scholarship applicants must

file the PCS by October 1, and Regular Plan applicants by February 15.

Agnes Scott offers four four-year scholarships through the National Merit Scholarship Program. Recipients of these awards are selected from Finalists who have specified Agnes Scott as their college choice. Stipends range from \$100 to \$1,500 and are based on need as estimated by the National Merit Scholarship Corporation. The College is also participating in the General Motors Scholarship Plan for 1967-1968 through the award of a scholarship to a freshman entering in 1967. The General Motors Scholarship stipend will be from \$200 to \$2,000 per year, depending upon financial need.

Any recipient of an Agnes Scott scholarship who has received assistance from another source is expected to notify the College. The Agnes Scott scholarship may then be subject to review and some adjustment made. It is also subject to adjustment if the recipient is awarded an honor scholarship at Commencement (see section on Commencement Awards).

## Loans

Income from a few special funds is available for small loans which bear little or no interest while the student is in residence. If an applicant's need exceeds the resources available at Agnes Scott, the College is often able to assist her in securing aid from one of several educational loan foundations. Attention is also called to the increasing number of federally assisted state guaranteed loan programs now in operation.

## ALUMNAE ASSOCIATION

ORGANIZED in 1895, the Alumnae Association of Agnes Scott College has as its purpose the furtherance of the aims of Agnes Scott College, intellectually, financially, and spiritually. All former students who earned any academic credit while in college are members of the Association. Its work is done under the authority of an Executive Board elected by the membership and composed of officers, committee chairmen and, *ex officio*, the director of alumnae affairs, the assistant director, and the presidents of the three Atlanta area alumnae clubs.

The Anna Young Alumnae House is operated as the national headquarters of the Alumnae Association and as the guest house for the College. The Association publishes *The Agnes Scott Alumnae Quarterly*, conducts the alumnae division of the College's annual giving program, maintains files of information on more than 9,500 individual alumnae, and keeps alumnae aware of the nature of the College today. The Association is a member of the American Alumni Council.

Volunteer committees carry on such services as working with alumnae clubs in thirty-eight communities, corresponding with class officers, offering a program of continuing education for alumnae, planning class reunions, and presenting career conferences for students and special events for the College or alumnae groups. The Alumnae Association seeks to make alumnae opinions available to the College and to make alumnae an active force in American education.
